

BUSINESS PROPOSAL | MOBILE APP PROJECT

Wash Wizard

Digital Wash Logging & Instant Receipts

A staff app for Mig Flares Car Wash

Log every wash | Issue receipts in seconds | Track revenue in real time

Prepared for: Mig Flares Car Wash operations and management

EXECUTIVE SUMMARY

From paper logbook to a digital counter

Mig Flares Car Wash runs a high-traffic counter where every wash is logged, paid for, and receipted. Today that work is done by hand on paper - a process that is slow, easy to get wrong, and impossible to audit. The Wash Wizard staff app replaces the paper logbook with a mobile-first tool that records each wash in seconds, issues an instant digital receipt with a unique number, and keeps a complete, searchable history of every transaction and every kwacha collected. This proposal outlines the objectives, the features, and the business value of the

Seconds

to log a complete wash

Unique

receipt number on every sale

100%

of money tied to a receipt

THE CHALLENGE

Manual operations quietly cost the business

- Handwriting slows the queue - every customer waits while details are copied into a book
- Receipts get lost or fade - customers have no proof of payment, fueling disputes
- History is unsearchable - reconciling a day's takings means paging through logbooks
- No real-time revenue view - shortfalls are discovered at end of day, not in the moment
- Pricing is done from memory - mistakes and inconsistent charges are easy to make

THE COST

Lost time, lost trust, and revenue that cannot be measured or proven.

THE SOLUTION

One app covers the whole counter workflow

Log a Wash

Pick a service package, add the customer and vehicle, confirm payment.

Instant Receipts

Every sale gets a unique receipt number the moment it is saved.

Full History

Filter by today, yesterday, or all records - every entry is searchable.

Managed Services

Packages and prices are set centrally and stay in sync on the counter.

A 3-tab staff app: Home / New Wash / History

OBJECTIVES

What the app sets out to achieve

- Speed - log a complete wash in under a minute
- Accuracy - pick a priced package; no manual calculation
- Trust - every customer leaves with a verified digital receipt
- Visibility - see today's revenue and transaction count at a glance
- Accountability - every kwacha traced to a receipt number
- Growth - a data foundation for future loyalty, SMS, and reporting

FEATURE

Log a wash in seconds

- Choose a service package with its price shown
- Enter the customer name and vehicle plate
- Select vehicle type: Car, SUV, Truck, Minibus, or Other
- Pick payment method: Cash, Mobile Money, or Card
- Add optional notes for special requests
- Built-in validation blocks incomplete entries

SERVICE PACKAGES	
Exterior Wash	K 15.00
Full Interior + Exterior	K 30.00
Premium Detailing	K 60.00
Interior Only	K 25.00

FEATURE

Issue a receipt in seconds

- Automatic unique receipt number on every transaction
- Confirmation screen shows customer, service, and amount paid
- Instant success feedback - the sale is never in doubt
- No more rewriting receipts by hand
- Every receipt is stored and reused for history and reports

RECEIPT

WW-2026-00184

Customer	John Mwale
Service	Full Interior + Exterior
Vehicle	ABX 1234 . SUV
Payment	Cash

Amount paid **K 30.00**

Paid at 14:32 | Aug 2, 2026

FEATURE

Complete transaction history

- Home screen shows today's revenue and transaction count live
- History tab filters by Today, Yesterday, or All records
- Each entry shows receipt number, customer, vehicle, and service
- Amounts and timestamps are captured automatically
- Pull-to-refresh keeps the counter accurate throughout the day

FEATURE

Add new services without touching the app

- Service packages are managed centrally (admin portal + shared API)
- Add a new package with name, description, and price
- It appears instantly on the counter for staff to select
- Toggle packages active or inactive instead of deleting history
- Prices stay consistent across every checkout

CENTRAL SERVICES LIST

Exterior Wash	K 15.00
Full Interior + Exterior	K 30.00
Premium Detailing	K 60.00
Vacuum + Polish	K 20.00

New services appear in the app instantly

How this pays off for the business

Serve more cars

Faster checkout shrinks the queue and lifts daily capacity.

Account for every kwacha

Every payment is tied to a receipt number and a stored record.

Settle disputes instantly

Prove payment in seconds with searchable transaction history.

See what sells

Top-service data guides pricing, promotions, and staffing.

Built on a dependable, modern foundation

- Staff app: React Native (Expo) - one codebase for Android and iOS
- Admin portal: web dashboard for services, receipts, and revenue
- Backend: secure REST API (Express) backed by PostgreSQL
- End-to-end typed data and validation - fewer errors at every step
- Revenue summaries (daily / weekly / monthly) computed automatically
- Everything under version control, tested, and reproducible

EXPECTED IMPACT

Small change, measurable results

Seconds

Typical wash logging
time cut from minutes
to seconds.

Zero

lost or faded receipts -
records live forever
in the system.

Full audit

Every transaction is
reconciled in seconds
at closing time.

Informed

Know best-selling
services and the
busiest hours.

NEXT STEPS

The path forward

- Install the staff app on counter phones or tablets
- Load current service packages and pricing
- Train staff on the 3-tab workflow: Home, New Wash, History
- Go live for a trial week, then roll out fully
- Expand later: SMS/WhatsApp receipts, loyalty, and shift reports

Mig Flares Car Wash

Ready to wash faster, account for everything, and grow smarter.
